

### **PG&E New Energy Efficiency Initiatives for Food Processors**

Tuesday, January 31, 2012

2:00pm – 3:00pm

Sacramento Convention Center

Speaker: Francois Rongere, Industrial Customer Energy Solutions, Pacific Gas & Electric

Pacific Gas and Electric and the California Public Utilities Commission are promoting innovative new programs designed to provide tools, performance measures, and other resources to food processors and other industrial customers seeking to increase energy efficiency and certify advanced energy performance. Francois Rongere with PG&E will discuss the pilot Superior Energy Performance program, the new ISO 50001 International Energy Management Standard, and other options available to food processors and how your company can develop cost effective programs to save energy.
